MELTING AND REFINING DEPARTMENT,

Philadelphia, 15th June —, 1883.

Sir

In response to your letter of the 13th Inst., I respectfully Report that there is very reason to believe that the Annual Settlement, soon to be completed, will prove satisfactory, because all the daily and monthly returns of work in this Department have proved satisfactory.

Our constant solicitude and endeavor, to conduct this department with economy, must prove fruitful in results, but there is reason to fear that the force employed will scarcely be sufficient, if measured by the present excessive work executed, because all my foremen are often obliged to put their hands to work, instead of securing the greatest economy & efficiency by only superintending work.
